AUTOMATION

What to automate first

A simple scoring method

Swipe →

MarketCentaur

SCORE 1–5 ON

Five factors

01 Volume: how often it runs

02 Time: effort per run

03 Rules: same steps every time

04 Digital inputs: emails, forms, files

05 Low risk: mistakes easy to fix

MarketCentaur

READ THE TOTAL

Out of 25

- → Above 18: strong first candidate
- → 12–18: worth a closer look
- → Below 12: park it for now

MarketCentaur

BEFORE YOU BUILD

Fix the process first

- → Write the steps down as they are
- → Remove steps that add nothing
- → Agree how exceptions are handled
- → Keep a person on high-risk steps

MarketCentaur

AFTER GO-LIVE

Measure four things

- → Hours saved per week
- → Exceptions handled by people
- → Errors caught later
- → Whether the team uses it
