THREE OPTIONS

What each one is best at

- → DIY: cheap, but relies on one person's habits
- → Software: many competitors, if someone owns it
- → Managed service: analysis and recommendations

MarketCentaur

FOUR QUESTIONS

How to decide

01 Who will own it?

02 How many competitors and markets?

03 Do you need data, or decisions?

04 Which decisions will it inform?

A SENSIBLE PATH

For most growing teams

01 Start DIY for a month

02 If it keeps getting dropped, hand it off

03 Add software when collection becomes the bottleneck
