COMPETITIVE INTELLIGENCE

What competitors' job ads reveal

Written to hire, not to impress

FIVE THINGS TO READ

Where and who

- → Where they're hiring: new countries or cities
- → Which teams are growing
- → The customers each role will serve

FIVE THINGS TO READ

What and how senior

- → Skills and tools they ask for
- → Senior hires, which often come before a strategy shift

READ PATTERNS, NOT POSTS

What counts as a signal

- → Several roles in one new location
- → A team that keeps growing
- → New skills repeated across postings

BE CAREFUL

Before you conclude

- ✖ Ads can stay up after roles are filled
- ✖ Some roles just build a candidate pipeline
- ✖ Job titles vary between companies
